GOVERNANCE

5th GLOBAL CONFERENCE ON SOCIAL RESPONSIBILITY

INDO-PORTUGUESE BUSINESS MEET

Profiting from your business by turning it into a cause
23 - 25 September 2010 Lisbon, Portugal

"Combating climate change has the potential to shape the future of business as never before and make it more sustainable, equitable and profitable."

"The biggest challenge for the policy makers is to use capital markets for price discovery of our natural environment and replace the acquisitive consumeristic model of growth by one that creates competitiveness and enjoyment through experiential growth that sustains profits with minimal impact on environment"

Dr Madhav Mehra
President, World Council For Corporate Governance

Dear All

5th Global Conference on Social Responsibility

The deliberations of our 10th International Conference on Corporate Governance held in London on 9 and 10 October 2009 underscored the importance of social and environmental issues in boosting the capital markets. It was noticed that companies engaged in clean and green issues are thriving despite a worldwide slowdown. The US Senate acknowledged its importance by including clean energy tax credits in the \$700 billion bail out package to rescue the financial sector. The council felt that an ideal theme for our forthcoming Global Conference on Social Responsibility would be "Profit from your business by turning it into a cause".

I have therefore pleasure in inviting you to this conference being held in Lisbon from 23-25 September 2010.

The World Council for Corporate Governance aims to develop a model of corporate governance that puts creation of sustainable wealth, energy, security, poverty alleviation and social inclusion holistically at the heart of business agenda so that our efforts can result in raising all boats.

As in the past, the conference is expected to be attended by business and political leaders, legislators, policy makers, jurists, economists, financial analysts and NGOs with experience from investing and working with developing countries. We think you can make a significant difference to this debate by participating and supporting the conference by

- i. Partnering with WCFCG to promote this event among your contacts
- ii. Speaking and supporting the conference as a sponsor
- iii. Establishing a working group of your choice to research any of the areas related to this theme
